In our members own words:

"I was diagnosed with a Grade 3 Astrocytoma! I have been using Synergy Wellness products for 7 months, primarily the ACDC products. I had my MRI on Friday and I was cleared of cancer and my tumor is gone."

B.A., Pomona, CA

"Your products are a miracle in my life. I've been able to get off steroids and pain killers completely. Swelling is way down in my wrists - definition has returned and chiropractor is able to adjust the wrist and hand (which couldn't be done before); back pain is relieved. I no longer need to use ice packs to sleep Complete relief from Restless Leg Syndrome from high CBD. Thank you so much."

D.Q., Los Angeles, CA

"I have essential tremors and have been on a search for alternative options to prescription drugs. I started experimenting with different CBD brands, I noticed a slight change which gave me hope I was going in the right direction. It wasn't until I started with Synergy CBD tincture combination that I have had no tremors. My dosing had to be adjusted because I was losing weight, which I didn't need to do but know of many who would want just for that purpose. I sleep better, have less anxiety, overall well-being has improved."

If you are in doubt or have had minimal results, I recommend trying Synergy."
